

Sydney Builders Group Pty Ltd has implemented an Environmental Management System (EMS) which forms part of the company's Integrated Management System. It focuses on continual improvement in environmental performance at head office and all contract/project sites.

We maintain compliance with applicable environmental requirements and therefore fully committed to the prevention of pollution. We will involve all our managers, employees and work with our clients and suppliers to ensure environmentally sound and safe work practices, which continually meet regulatory requirements.

Sydney Builders Group Pty Ltd is committed to the following objectives:

- Compliance with applicable Environmental legal requirements and other environmental requirements including client requirements.
- Minimising our Significant Environmental impacts.
- Preventing pollution and minimising the adverse effects of our activities.

Sydney Builders Group Pty Ltd is continually committed to:

- Establishing and reviewing its environmental objectives.
- Implementing Climate change mitigation and adaptation techniques.
- Protection of biodiversity and ecosystems.
- Sustainable use of Resources.
- Ensuring that company employees and contractors are informed about this Policy and are aware of their responsibilities.
- Commitment to the protection of environment, including preventing pollution and promote recycling of products;
- Commitment to continual improvement of the environmental management system to enhance environmental performance;
- Commitment to implement and maintain an Environmental Management System, certified to the International Standard: ISO 14001:2015 for Environmental Management.
