

Sydney Builders Group Pty Ltd is determined to be an industry leader in Work Health and Safety management and performance and our objective is that our health and safety goals are effectively communicated, understood and implemented in a consistent manner. Central to the business culture is satisfying legislative compliance and a commitment to the health and safety of employees, subcontractors and everyone who visits our work areas.

Sydney Builders Group Pty Ltd is committed to achieving this by:

- Complying with all applicable laws, regulations, standards, codes and other requirements relating to health and safety issues, and eliminate hazards and reduce WHS risks;
- Committing to identifying Risks and Opportunities and eliminating hazards and reduce WHS risks in the Building and Construction Industry;
- Maintaining, monitoring, reviewing, inspecting, auditing and continually improving the Work Health and Safety Management System and programs consistent with the certification requirements of ISO45001:2018;
- Establishing and continually developing education systems and training;
- Ensuring consistent health and safety practices across all work sites and providing safe and healthy working conditions;
- Providing sufficient and suitable resources to implement and maintain the Integrated Management System (incorporating Work Health and Safety Management);
- Applying the principles of Risk Management;
- Committing to regular consultation, participation and communication to workers including non-managerial workers or their representatives;
- Establishing and reviewing meaningful and accurate health and safety performance measures and targets as a means of eliminating work related injury and illness and ensuring continual improvement;
- Monitoring and evaluating the health and safety performance of subcontractors and implementing effective communication with them on health and safety and compliance issues;
- Ensuring all incidents and near misses are reported and action taken to prevent recurrence.
